What the two dates showed

9 cheaper **3** no change **2** went up

- The biggest bundle: the price went up **$1** while the "was" price went up **$80**, so "25% off" became "45% off".
- Excursions (Jan 2 ports): the banner said **"up to 50% off"**; nearly every tour she scrolled showed **35%**.
- For two people, one week, the all-in bundle comes to **$2,267.86**, nearly 8× her $287.64 fare for that week.

Before you buy any add-on

- **Screenshot the price AND the "was" price** the day you first look.
- **Check again before you buy.** Sales roll into each other; the discount % can rise without the price falling.
- **"Up to" means the best item.** Look at the one you actually want.
- **Ask on board** about day passes (e.g. the thermal suite) before paying for the week.
- **Check with your own cruise line.** Prices and offers change without notice.
